Comments:

The amendments to the claims and Table at column 13, line 30 are approved. The amendment to the claims is consistent with the claims as allowed in the 18 December 2003 Examiner's amendment and merely corrects printer errors. The amended Table merely adds a title and lines demarcating the columns and rows.

The amendment to the sequence listing filed with the cover letter dated and mailed March 8, 2007 is NOT approved. First, the submission is unsigned. Second, the amendment alters the scope of the claims by modifying the amino acid sequence of the claimed invention such that a new examination is required.
